

Rainy Yuzhen Dong, Ph.D.

+1 (650) 509-7859 rainydong@stanford.edu

Developmental psychologist with expertise in language and reading development across early and middle childhood. Experienced in corpus-based methods, experimental methods, and large-scale data modelling in R, with a keen interest in translating research into practice through educational tools and research-practice partnership.

ACADEMIC POSITION

Postdoctoral Fellow (Advisor: Jason Yeatman & Rebecca Silverman)

Jun 2026 - May 2028

Graduate School of Education, Stanford University, US

Postdoctoral Fellow (Advisor: Erika Bergelson)

Jan 2025 - May 2026

Lab for Developmental Studies, Department of Psychology, Harvard University, US

EDUCATION

DPhil Experimental Psychology (Advisors: Kate Nation & Robert Hepach)

Oct 2021 - Jan 2025

Department of Experimental Psychology, University of Oxford, UK

BSc Psychology

Sep 2018 - Jun 2021

University College London, UK

SELECTED RESEARCH EXPERIENCE

Postdoctoral Fellow, Bergelson Lab, Harvard University

Jan 2025 - May 2026

- Analyzed longitudinal corpora of children's early language environment (6-54 mo.) using complex mixed-effect modeling
- Validated a parental word exposure survey against item-level corpus frequency and standardized CDI measures
- Conducted behavioral experiments using looking-while-listening and head-turn preference to investigate early word comprehension among infants (10-24 mo.)

Doctoral Researcher, ReadOxford Lab, University of Oxford

Oct 2021 - Jan 2025

- Analyzed six large-scale language corpora using NLP tools (sentiment analysis, topic modelling) for emotion words and emotional content in children's reading and writing (5-16 y/o)
- Conducted item-level corpus analyses to evaluate lexical frequency and contextual valence of emotion words across ages
- Developed and assessed the construct validity of an author recognition test as a proxy for children's reading experience
- Designed behavioral experiments to assess how reading valenced narrative context supports children's novel word learning
- Organized international research workshop on cross-linguistic corpus analysis methods in children's reading development

Research Assistant, Human Centered Computing, King's College London

Jun 2020 - Sep 2021

- Co-designed and deployed the smart toy Purrble in primary school settings to support children's emotion regulation
- Assessed intervention effectiveness through focus group discussions and co-design workshops with educators
- Conducted qualitative analysis of parenting forums to promote digital child mental health interventions

RESEARCH & ANALYTICAL SKILLS

Statistical & Psychometric Methods -- R

- Mixed-effects modeling (*lme4*, *glmmTMB*), model comparison, structural equation modeling, reliability analysis (*psych*)
- Corpus-based lexical analysis, sentiment analysis, topic modelling

Reproducible Research -- RMarkdown, Git, GitHub

SELECTED PROFESSIONAL EXPERIENCE

Literacy Specialist, Crescendo Literacy Program, Dr Lucy Brown-Wright Ltd.

Jan 2020 - Sep 2024

- Delivered individualized reading intervention for children (7-13 y/o) with language and literacy difficulties
- Applied behaviorist techniques (e.g., operant conditioning with descriptive praise) to reinforce positive reading habits
- Collaborated with clinical psychologist and parents to tailor strategies and monitor developmental progress
- Designed and led training and onboarding sessions for over 20 incoming tutors, standardizing instructional practices

Teaching Fellow & Lab Demonstrator, University of Oxford

Oct 2022 - Mar 2024

- Designed and delivered small-group tutorials on courses including *Developmental Science* and *Cognition*
- Demonstrated in Practical Lab sessions for 120+ college students in *Introduction to Statistics* and *Developmental Science*
- Coordinated with course leader and other tutors to incorporate feedback and improve teaching effectiveness

Founder, MindMe Psychology Promoting Group

Feb 2019 - Jun 2021

- Founded an online initiative to make psychological science accessible, reaching 3,000+ readers

Team Leader, Behavioral Science Hackathon 2022, UCL Centre for Behavior Change

Apr 2022

- Directed a cross-disciplinary team to develop a behavioral intervention targeting environmental behavior change

Bilingual Tutor, Cambridge Youth Summer Camp, China

Jul 2019 – Aug 2019

- Supported English language learning and confidence through creative activities for multi-age youth groups (8-18 y/o)

PUBLICATIONS & SCIENCE COMMUNICATION
